PARTNERS REACH

The United Nations and the IASC work through a wide range of humanitarian partners, including national and international organizations to provide assistance. This includes local procurement of relief items, provision of services, including medical support and protection and other key humanitarian functions. These activities are funded through the United Nations Agencies, the Ukraine Humanitarian Fund and other mechanisms. Currently, there are at least **235** humanitarian agencies with completed or implementing activities in every Oblast in Ukraine in all sectoral areas. *More detailed information on agencies and activities will be published weekly through the 5W tool.*

* Health and FSCL cluster partially anonymized some partner names. As a result, we were not able to include in calculating the distinct number of partner organizations. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance. Creation date: 26 May 2022.
